

IF A CHILD CAN'T  
LEARN THE WAY WE  
TEACH,  
MAYBE WE SHOULD  
TEACH THE WAY THEY  
LEARN.

At UPA, our passion is to educate differently.

Blended learning is the combination of live, face-to-face instruction and online learning and delivery. This approach to education increases student control over time, place, path, and pace of how they learn. It allows us to address the individual needs of each student, identify learner's strengths, and differentiate curriculum for individualization.

## OUR VISION

Our incredible faculty works purposefully as a family to create an environment where each student feels safe, accepted, and genuinely cared for on a daily basis. In this environment, every teacher will know students personally, foster academic growth and work ethic, and strive to nurture and develop life-long learners. We have a vision of "helping students discover what they were born to do" which is emphasized through the development of each student. We recognize that every student learns differently and refuse to put all students in the same "box", expecting the same results.

# The UPA Way.

## SMALL CLASS SIZES

**10:1 Student/Teacher Ratio**

## BLENDED LEARNING

**Live classroom instruction  
blended with online learning**

## INDIVIDUALIZED LEARNING PLANS

**Every student has an educational plan tailored specifically for their needs and future goals, developed by the student, their parents, and teachers.**

## COLLABORATIVE SPECIALISTS

**Students with Dyslexia receive individual instruction using Orton-Gillingham methods.**

**Students with learning differences receive one-on-one instruction, focusing on their specific areas of needs.**

## OUR SCHOOL

### **Its History**

Union Pointe Academy exists to partner with parents to educate children to the full extent of their God-given abilities and potential.

### **Its Faculty**

Our teachers focus on creating life-long relationships with our families. They specialize in offering engaging, multi-sensory approaches to teaching, being sure to help students reach their highest potential not just academically, but emotionally as well as socially.

### **Its Courses**

UPA offers a large variety of courses. Not only are all traditional classes offered, but we also offer fun electives which in the past have included archery, karate, fishing, chess, art, music, and STEM.
